

Beginning Sewing Class

We have had lots of requests for Beginning Sewing, so here you go.

Learning to Sew will lead to a lot of fun and creativity.

In these classes you will learn how your machine works and how to use it. We will be making a very basic project, as well as several different techniques.

The most important thing you will learn is about your MACHINE. If you don't have a sewing machine, we will be happy to let you use one of our wonderful store machines. When you sign up please let us know if you need to use a store machine or if you will be bringing your own. If you are bringing your own, please make sure that it's in good working order.

Remember it is not about the project, but about learning technique. The project we will be making is a pillowcase with french seams. We will also make a sample ruffle (which will include gathering fabric and hemming), as well as sewing on a button.

You can be a total beginner, or just need the class as a refresher to get you back into sewing.

We are offering several options as far as times for Class. Please choose which class time suits you.

Minimum age for class is 14 and up

This class is a 2 part class, held in the evenings.
